HENRY FIELD
EVERBLOOMING

ROSES

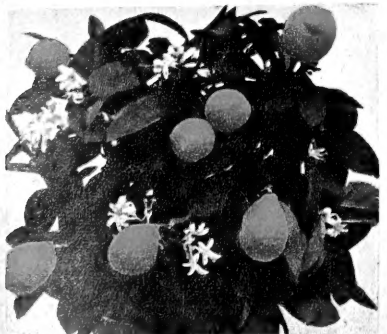

**Now You Can Have A
Beautiful Rose Garden
At A BIG SAVING!**

Frankly, we have a surplus of No. 2 Grade rose plants because, when we dig our rose plants to sell, most of them go into our Big No. 1 Select Grade, or the medium size No. 1 1/2 Grade, which we list in our catalog. But that leaves the smaller No. 2 plants out.

Our solution to this problem for several years has been to make this reduced price offer on these surplus No. 2's. The offer has proved so popular, and we have received many letters from our customers praising these roses, that we are repeating the offer again this year.

These No. 2's are of the same high quality varieties as the No. 1's. If they were only a little larger, they would be worth \$1.00 to \$1.25 apiece. They are healthy, husky and clean—no culls or damaged plants. They bloomed in our fields last year, and will bloom for you this year and, with a little care, will grow just as big and

just as beautiful as any rose you can buy at any price.

These are our regular, well-known named varieties, but we ask that you allow us to ship by color, not name. This will allow us to sell all of them. We will see that you get a good color assortment. And of course every plant is covered by Henry Field's money-back guarantee.

This is a fine opportunity for you to pick up a real bargain not offered in our big catalog. So order these rose plants now.

**Grow these TROPICAL FRUITS as
HOUSE PLANTS**

**Fragrant Blossoms . . . Edible Fruit
Easy to Grow in Pots**

These three dwarf tropical fruits make novel, interesting, evergreen house plants—they grow, blossom, and bear fruit in any sunny window. Plant them in the garden outdoors in summer if you wish. As easy to grow as a geranium.

N1131L—DWARF LEMON PLANT. Gets 2' high and lives for years. Fruits same flavor as ordinary lemons, but larger. Blossoms fragrant as orange blossoms, which they resemble.

N1140L—DWARF ORANGE (Otaheite orange). These are the miniature oranges displayed in hampers of fancy fruit at Christmas time. Fruit colors in October and remains in perfect condition on plant practically all winter.

N1143L—DWARF KUMQUAT (Hinds kumquat). Has shiny, dark green leaves, sweet-scented white flowers, and bright orange-yellow kumquats about 1" in diameter. Almost always in flower and fruit.

3 GREAT BUYS IN GLADS

**Big Bulbs—Guaranteed to Bloom
Beautifully the First Year**

25 SUPER GLADS for only **\$1.00**
No. BG580XL PPD.

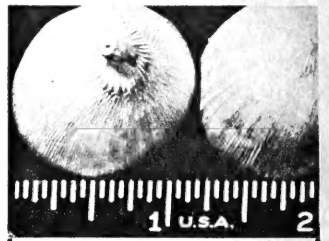

Or 75 for only \$2.00 PPD.

Every color of the rainbow—red, pink, white, lavender, blue, orange . . . plus smokies and combinations. Some are one color solid, and some are blotched. And every bulb is clean, vigorous, and of first class quality. They have been State Inspected, too.

These are all named varieties of choice gladiolus of plain and ruffled petals. Enjoy the glorious beauty of glads in your garden,

and in your home. Remember, they are one of the very best cut flowers, they are easy to arrange, and the flowers last a long time. Plant some bulbs each week for several consecutive weeks and they will bloom accordingly, giving you fresh flowers over a longer period. And you will find gladiolus one of the easiest of all flowers to grow.

We priced these glad bulbs low to make new friends, so don't miss this very worthwhile offer.

Above is an actual photograph of the Gladiolus bulbs offered at 25 for \$1.00. Please notice that the bulbs measure 1" to 1 1/2" across (about 4" in circumference). These bulbs will bloom the first year, and for many years thereafter.

40 GLAD BULBS
for only **\$1.00** PPD.
No. BG575XL

Each Bulb 3/4" to 1" Diameter

These are not the real large size bulbs, but neither are they the small bulblets so often offered as a "bargain". These bulbs are 3/4" to 1" in diameter—a size large enough to bloom the first year planted. They have been State Inspected, which means that they are clean, healthy, vigorous bulbs. This is an assortment of the world's finest gladiolus varieties—a rainbow of colors in plain and ruffled petalled kinds, at a money-saving price.

80 'Row Run' GLADS
for only **\$1.00** PPD.
No. BG574XL

Bargain in Mixed Sizes

We call these "Row Run" because the bulbs are of various sizes, just as they come from the field—big ones, regular-sized ones, medium-sized ones, and small ones.

But no bulblets, no culls. Every bulb is a clean, healthy, vigorous one that will bloom the first year. So, if you will take them "row run", and save us the expense of grading, we'll give you a super-bargain price.

Fastest-Growing Tree in the U.S.A.!

Henry Field's "Green King"[®] HYBRID ELM

Often Grows at the
AMAZING SPEED of 8
to 14 Feet Per Year!

16-YEAR RECORD
DISEASE RESISTANCE

Fast Growth for Quick Shade
Hard Wood for Strength, Long Life

If you want shade in a hurry, yet want a tree that is hardy, long-lived and hard-wooded, Henry Field's "Green King"* Hybrid Elm is the tree for you. It grows faster than any other tree in the United States, bar none—even faster than the soft-wooded, short-lived poplar. It evidently is a hybrid (although we do not know the cross), combining beauty and permanence with an extremely rapid growth.

Extra Hardy—Grows Anywhere

Henry Field's "Green King"* Hybrid Elm thrives in any normal type soil, and keeps right on growing in weather hot or cold, wet or dry. The leaves are large and dark green; the branches straight and strong, with great resistance to breakage from high winds, ice, and snow.

16-Year Record of Disease Resistance

Henry Field's "Green King"* Hybrid Elm is highly resistant to the serious elm diseases. We have sold several hundred thousand during the past sixteen years, and to date know of not one case

The above Henry Field "Green King"* Hybrid Elm is typical of the thousands now growing throughout the United States. This tree is highly resistant to the serious elm diseases.

of loss that has been diagnosed as Dutch elm disease. Many City Park Commissions that have prohibited the planting of vulnerable common elms enthusiastically approve the planting of Henry Field's "Green King"* Hybrid Elm.

*"Green King" is a registered trade mark owned by the Henry Field Seed & Nursery Co.

WARNING: not all hybrid elms are the same; to be sure, get Henry Field's "Green King" Hybrid Elm.

Susan was 3 when this Henry Field "Green King" Hybrid Elm was planted. When she was 5, the tree was over 25 feet tall.

"Crimson King" MAPLE

Showiest Foliage of All Trees

This new French hybrid is not only the reddest of all maples but the most showy of all trees in foliage. In early spring the young leaves are a brilliant, fiery crimson. They continue this bright color until well along into the summer when the upper side of the leaves deepens to a rich black-red tinted green, with underside of green. It never grows more than about 30 feet tall. Covered by Plant Patent No. 735.

HARD MAPLE

A4287L—(Sugar Maple). One of nature's most beautiful permanent trees. Grows compact, round-headed, and dense. Large green leaves turn bright red and gold in fall. 4 to 5-foot size. 3.50 each; 2 for 6.50, express not prepaid.

Quick-Growing 5 to 6 Ft. Size

OR 2 COLLECTIONS (10 TREES) for only \$4.98 PPD.

Everybody knows and loves this famous, fast-growing pillar tree. It can't be beat as a windbreak, and it makes beautiful backgrounds and borders. It also accents the beauty of shrubs and flowers and lawn. Good too to mark a lot line or as sentinel trees by the gate or along a drive. These 10 trees will make a screen or a tall hedge 60 feet long—for only 4.98!

1 GOLDEN SWEET 1 BLACK TARTARIAN } 2 SWEET CHERRY TREES for only \$3.98 PPD.

A3318L—GOLDEN SWEET. The yellow, sweet cherry that loads the tree with a big crop. Flavor is just as fine as any Bing cherry you ever tasted but, because the fruit is yellow, the birds won't bother it! 2.19 each; 3 for 6.15, postpaid.

A3303L—BLACK TARTARIAN. The best known and most popular of all sweet cherries. Big, purplish-black fruit has a delicious flavor. Grows well in widely different soils and climates. Bears well and regularly and lives for years. Very resistant to brown rot. A garden favorite for over 200 years. 2.19 each; 3 for 6.15, postpaid.

BIG 4 TO 6 FT. SIZE No. A2724XL

Sweet Cherries are the kind to use for desserts, eating fresh, fancy preserving, and making cherry cider.

1 MONTMORENCY 1 EARLY RICHMOND } 2 "PIE CHERRY" TREES for only \$2.98 PPD.

A3337L—MONTMORENCY. This is the standard by which all cherries are judged. It has big rich-red fruit which always loads down the trees. Juicy but firm, making it ideal for pies or preserves. And good to eat right off the tree. 1.59 each; 3 for 4.49, postpaid.

A3312L—EARLY RICHMOND. Always appreciated because bears first in the spring. Super-hardy and a heavy bearer of shiny red fruit of high quality. Has a delicious flavor. 1.59 each; 3 for 4.49, postpaid.

3 TO 3 1/2 FOOT SIZE No. A2727XL

"Pie Cherries" are the kind to use for making those mouth-watering cherry pies, and are good for preserving too.

Henry Field's 3 to 4-Foot Size APPLE TREES

A Collection of the Best Varieties 4 for only \$4.19 PPD.

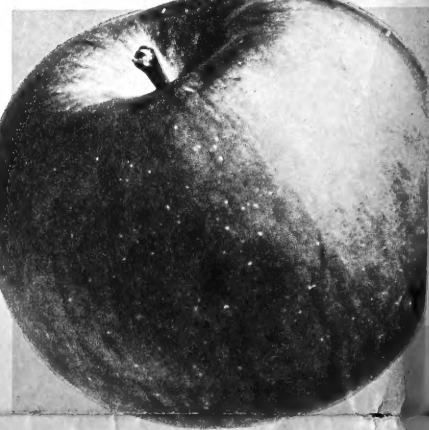

- This collection gives you:
- one of the best winter cooking apples
 - a yellow early summer apple
 - a very early-bearing fall apple
 - one of the best eating apples

A3047L—JONATHAN. A winter apple. Has a world-wide reputation for being one of the very best. Ours is the deep red variety, good for cooking or eating. Keeps well.

A3105L—YELLOW TRANSPARENT. The yellow early summer apple. Excellent for both cooking and eating. Clear yellow, crisp and splendid flavor. Comes into bearing very early and is extremely hardy. One of the earliest ripening of all apples. Usually ready to pick by mid-July.

A3100L—WEALTHY. A fall apple that bears heavily. Ripens in September but is good two weeks before ripe. Indispensable in cold regions and valuable everywhere. Good for backyards and home orchards as tree never gets very large. Stores well.

A3016L—RED DELICIOUS. First choice of winter apples. The improved, early-coloring, big Red Delicious with crisp, fragrant flesh and fine flavor.

Increases in size and color as tree grows older. Always brings a premium on the market.

INDIVIDUAL PRICES: 3 to 4-foot size, 1.29 each; 3 for 3.59. 4 to 6-foot size, 1.59 each; 3 for 4.45, postpaid.

A MONEY-SAVING OFFER!

These are two of the leading varieties of June bearing strawberries. They will give a full crop of berries each June. Pick them, freeze them, can them, make jelly and jam of them—all in one short period and get it over with. Then you can eat from your supply all year.

ROBINSON is very large, has delicious flavor, and the berries are a bright red color. It is gaining in popularity every year.

SENATOR DUNLAP is the old reliable favorite. It has flavor, quality, good color, and unusual drought resistance.

A BRAND NEW JUNE BEARER FROM U. S. DEPT. OF AGRICULTURE, BELTSVILLE, MARYLAND

More Productive, Longer Bearing
Larger Berries of Higher Quality

B4128L—(Indexed U.S.D.A. Virus-Free). This new June Bearer is from the U. S. Dept. of Agriculture at Beltsville, Maryland. It has everything that both the home gardener and the commercial grower wants in an all-purpose strawberry.

The berries are deep red all the way through, and chock-full of delicious, honey-sweet goodness. The plants bear heavily during all of June, and the berries stay large and firm throughout the picking season.

Surecrop is ideal for shipping, canning, or freezing.

If you want a tasty strawberry, one that you will relish because it is so good, plus a vigorous, disease-resistant plant that produces many runners—Surecrop is the one for you. 25 for 2.00; 50 for 3.50; 100 for 5.98; 500 for 24.98; 1,000 for 44.98, postpaid to your door.

P.S. The U.S.D.A. named it "Surecrop" because they felt you would be surer of getting a crop with it, year after year, than with any other June bearing strawberry.

3 NEW CANADIAN LYTHRUM

You've Read About These New Beauties
—Now You Can Grow Them to Flood
Your Garden with Vivid Color

- THOUSANDS OF FLOWERS ALL SUMMER LONG
- THRIVES IN SUN OR PARTIAL SHADE
- LIVE FOR YEARS—HARDY ANYWHERE

Lythrum long has been recognized as one of the very best, hardiest, and longest lived of all perennials. Now, with these three new varieties from the Morden Experiment Station and Manitoba in Canada, they also have sparkling color. They bloom profusely and continuously all summer long, right up until freezing time. The plants grow nicely upright to a height of three to four feet. They make a larger clump each year, yet do not spread by seed or stolon to become a pest.

We ship potted plants when danger of frost damage enroute is past.

B2126L—MORDEN ROSE. The flowers are a rich, deep rose, and the plants are beautifully shaped with clean, dark green leaves that turn bronzy-red in the fall. 75c each; 3 for 1.90, postpaid.

B2124L—MORDEN GLEAM. Nearest red of all lythrum. Has bright, gleaming flowers of carmine by the hundreds. The foliage is dark, glossy green, shading to bronze in the fall. 69c each; 3 for 1.80, postpaid.

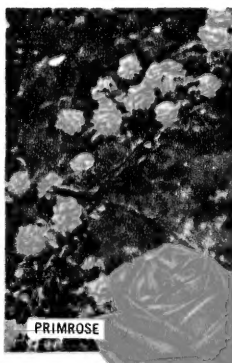

B2123L—LYTHRUM DROPMORE PURPLE. Grows about 3 feet high and has flowers of good bright lavender-purple. Flowering season is a little later than the Morden types above. Fine, upright, shapely plant. 69c each; 3 for 1.80, postpaid.

50 Plants "AMOR RIVER" PRIVET HEDGING

The Ideal Trimmed Hedge

Amor River Privet is the most widely used, and most popular, of all trimmed hedges. Not only is it hardy and fast-growing, but the more it is trimmed, the more dense and beautiful it becomes. Its natural, untrimmed habit of growth is bushy, yet upright. The leaves are of a lustrous green color. Its early white flowers are followed by jet black berries.

Plant it two or three feet apart for a tall, trimmed hedge or, with the same planting distance, it could be allowed to

4 ENTRANCE EVERGREENS

Here's How You Can Save Up to \$20.00!

Have you put off planting entrance evergreens because they cost so much? Well, you don't need to delay any longer.

Balled and burlapped evergreens cost you \$5.00 to \$10.00 each. And then you usually pay someone to plant them. If you plant them yourself, they're back-breakingly heavy to handle, and you have to dig holes big enough to hide in.

Save yourself a lot of money, and

Henry Field's Finest POTATO SEED SETS

You can grow more potatoes, and better potatoes, with these seed sets. First, they come from the finest basic seed stock in America. Next, each set has just the right amount of meat with the eye to insure best germination. Finally, the sets are treated to eliminate surface fungus and to protect them against soil-borne organisms, and to enable you to plant when the ground is still cold.

260L—WHITE COBBLER. The yardstick by which all potatoes are judged. A wonderful variety any way you look at it.

262L—RED PONTIAC. Most popular "red" potato. Early. Yields big. Shallow eyes. Cooks well.

269L—KENNEBEC. New white with great promise. Yields well. Resistant to mosaic and blight. Smooth and widely adapted.

270L—RUSSET BURBANK. Similar to famous Idaho potato. Good all around. Bakes beautifully. Worth a trial anywhere.

268L—REDKOTE. A new one that looks very good to us. Mid-season. Oval shape with shallow eyes. Cooks mealy and white. Has made tremendous yields in Iowa and Minnesota.

Every Plant a Solid
Mass of Flowers

These are sometimes called the "Plant of a Million Mums" because they often have over 1,000 good-sized, double blooms at one time. You never miss a dozen flowers clipped daily for your table.

These plants grow 2½ feet broad and about 2 feet high, are very hardy, and bloom from late August until frost. They are a beautiful sight planted singly, and a row of them makes a colorful border.

Please note that we are including in this group one of the showy, new brilliant royal purples.

America's Most Exotic
House Plant

"BIRD OF PARADISE"

N1127L—The blossoms of "Bird of Paradise" (*Strelitzia regina*) are gorgeous flowers 3 to 5 inches long with an unusual shape and striking colors of red, yellow, blue and orange. It looks like an exotic, tropical bird of paradise. The plant gets about two or three feet tall, and continues to make a wider clump. It usually begins to bloom when it has nine or more leaves, and a

mature plant has 25 to 30 flowers at one time.

The cut flowers last two to three weeks. Florists prize the blossoms, sell them retail at from \$15.00 to \$25.00 per dozen. Yet this beautiful plant is easy to grow, and lives for many years, constantly increasing in size and beauty. It is sun-loving, but does well in partial shade. A tiny amount of plant fertilizer every two or three weeks is helpful. 2.50 each, or 3 for 6.50, postpaid.

SENSATIONAL NEW GLAD

B6361L—This is a most unusual color for a Glad—a yellowish-green—almost chartreuse. Shines brilliantly under artificial lights. The flowers are medium in size, and the plant blooms early to mid-season. For maximum depth of delightful color, cut the spikes when the buds are just beginning to show color, then let them open indoors. 35c each; 3 for 1.00, postpaid. P.S. Supply limited, so orders will be filled on first-come, first-served basis.

B6606XL—For sheer beauty and brilliance of color, no other flower surpasses these begonias. The double blooms are perfect in form, and often grow five to eight inches across. They like shade so are ideal for shaded windows, porch boxes, and shady spots in the garden. Try some on north side of house or garage. Or in borders that run under deep shade of trees. They bloom all summer long, and make stunning cut flowers.

We send you 1¼" to 1½" size bulbs that bloom first summer. They are easy to grow outdoors, or indoors as a potted plant. "How to Grow" directions sent with each order.

FREE GIFT: with each order of 12 bulbs for \$2.00, a bulb of graceful Hanging Basket Begonias.

HANGING BASKET BEGONIAS

B6613XL—Has dozens and dozens of blooms on one plant. Thrives in partial shade, is free-flowering, and easy to grow. Comes in brilliant shades of red, pink, yellow, bronze, and apricot. Wonderful for hanging baskets, shaded porch boxes, on sloping rock garden or rock wall, or in pot on ledge or railing. We send big blooming-size bulbs 1¼" to 1½" in diameter, complete with "how to grow" directions. Mixed colors: 3 for 1.00; 6 for 1.75; 12 for 2.50, postpaid.
